Fire Aid

Ship Security Services and ISPS

Global terrorism and security threats are now recognised as a major problem to the international shipping industry.

Fire-Aid International's security services can provide a range of services to ensure the safety of the crew and vessel whether in port or at sea.

ISPS auditing
Ship security assessment
Security training, drills and exercise
BMP4 Implementation and training

Piracy poses a significant risk to the crew and vessel in various worldwide locations, but this risk can be dramatically reduced with the assistance from Fire-Aid International's Security Partners.

• Anti-Piracy Protection
• Provision of onboard security personnel
• Vessel hardening
• Onboard crew training and drills
• Armed and unarmed protection services

We can also provide a range of security training courses at our worldwide training centres including;

• Approved SSO Training
• Approved CSO Training
• FPOS Training
• MSO Training
• DSD Training
• ISPS Awareness Training
• Close Protection Training
